

The 2026 Workplace Wellness Survey

This survey helps your organization demonstrate thought leadership and explore the challenges facing workers when it comes to financial wellbeing, caregiving, and mental health, as well as the role of benefits in recruiting & retaining employees.

EBRI and Greenwald Research present the Workplace Wellness Survey!

The 2026 survey will have a **special focus on the experience and attitudes of unpaid Caregivers.**

The survey will compare caregivers with their non-caregiving counterparts and explore workplace wellness factors including debt, emergency savings assistance, voluntary benefits, mental health, physical health, satisfaction with benefits, paid leave, work-life balance, and flexible work arrangements.

Survey Partner Benefits:

- Help shape the development of the questionnaire.
- See the research findings first.
- Access raw data for insight and analysis.
- Receive comprehensive survey results, including underlying data.
- Utilize survey results for marketing and communications programs efforts.
- Become an industry leader and spokesperson by joining conference panels and webinars.
- Enjoy the recognition with an extended earned and paid news media outreach along with social media campaigns that are valued in excess of \$250,000.
